THE BIOSPHERE TEACHER GUIDE. answers with the class. THE BIOSPHERE: CHAPTER 2. Ecosystems 101. People generally think of ecosystems as large regions, like biomes. However, an ecosystem can be almost any size. The size is determined by the observer and what is being observed. For example, an ecologist might study wolves and moose in the.

### biosphere study guide answers - Free Textbook PDF

The biosphere's creation and continuous existence results from chemical, biological, and physical processes. For organisms to live, certain environmental conditions (such as proper temperature and moisture) must exist, and the organisms must be supplied with energy and nutrients (food). All the animal and mineral nutrients necessary for life are contained within Earth's biosphere.
