Illuminates with audible alarm with a message indicating that the diesel particulate filter requires cleaning due to a blockage. In this instance, regenerate the filter by driving at a speed of at least 37 mph (60 km/h) until the warning light goes off. This is best performed on a road that doesn't require slowing down or stopping.

The Citroen Relay probably isn't going to be the first choice that springs to mind when you're building a preliminary shortlist for a large van, but it definitely deserves to be on your list. The basic van itself is extremely tough and well equipped, and from that point, you can specify a variety of options packs as required.
