Game Maker Language An In

GameMaker: Studio has its own proprietary programming language called the GameMaker Language (abbreviated to GML). The GameMaker: Studio programming language, GML, gives you much more flexibility and control than the standard actions that are available through the Drag'n'Drop interface. There are a number of different places where you can use this language to create and control your game:

As someone who started using gamemaker more than 10 years ago and then took a long hiatus to learn C++, Java, and other programming languages, let me say that this book has been an invaluable refresher. A good portion of the book is dedicated to concepts that will be familiar to experienced programmers.
