Male pattern baldness is a genetic and hormone-related condition which leads to a receding hairline and thinning hair at the crown of the head. This type of balding is a continuous process that happens slowly over the course of many years.

## **How to Know if You Have Male Pattern Baldness: 9 Steps**

Pattern hair loss is hair loss that primarily affects the top and front of the scalp. In male-pattern hair loss ( MPHL ), the hair loss often presents itself as either a receding hairline, loss of hair on the crown ( vertex) of the scalp or a combination of both, while in female-pattern hair loss ( FPHL ), it typically presents as a thinning of the hair.

## **Pattern hair loss - Wikipedia**

This condition is called androgenic alopecia, male-pattern baldness and female-pattern baldness. It usually occurs gradually and in predictable patterns — a receding hairline and bald spots in men and thinning hair along the crown of the scalp in women. Hormonal changes and medical conditions.

## **Hair loss - Symptoms and causes - Mayo Clinic**

Symptoms of hair loss include hair loss in patches usually in circular patterns, dandruff, skin lesions, and scarring. Alopecia areata (mild – medium level) usually shows in unusual hair loss areas, e.g., eyebrows, backside of the head or above the ears, areas the male pattern baldness usually does not affect. In male-pattern hair loss, loss and thinning begin at the temples and the crown and hair either thins out or falls out. Female-pattern hair loss occurs at the frontal and parietal.

## **Hair loss - Wikipedia**

Male pattern baldness, or androgenetic alopecia, is a genetic condition that is known to be responsible for over 95% of male hair loss. If your hair loss is characterized by a slowly but steadily receding hairline, you can be almost sure that male pattern baldness is to blame.

## **Male Pattern Baldness: Causes and Treatment - Mipin**

“It’s unlikely for male pattern baldness to set in before the age of 18, but as soon as you notice an increase in the amount of hair shedding, or some thinning, you should act,” says Leonora...
