He is known for his monographs on the fungal genera Paecilomyces and Scopulariopsis. Smith also wrote a popular textbook, Introduction to Industrial Mycology, first published in 1939, that was reprinted six times. Smith was the President of the British Mycological Society in 1945, and its foray secretary in 1947 and in 1951-52.

George Smith (mycologist) - Wikipedia

INTRODUCTION TO MYCOLOGY The term "mycology" is derived from Greek word "mykes" meaning mushroom. Therefore mycology is the study of fungi. The ability of fungi to invade plant and animal tissue was observed in early 19th century but the first documented animal infection by any fungus was made by Bassi, who in 1835 studied the muscardine disease of silkworm and
