Practice Instrument Approaches - CFI Notebook

The Integrative Practice is a clinical psychology service which was established in the Wellington CBD in 2016 by Dr Karen Faisandier. This service was developed due to the recognition of how important nutritional and lifestyle influences are on physical health, which is a foundation for how people think, feel, relate, and behave.

The Integrative Practice

A review of the specialized emphases or tracks within the existing practice-focused programs revealed that in general they fall into three major categories of practice: 1) direct care of individual patients; 2) care of patient populations, including community health nursing; and 3) practice that supports patient care. The latter category ...
