### Wrx Ecu Flash Tuning Guide

The AccessPort is a tuning device that Cobb makes for many turbocharged cars, including the WRX. It plugs into your car's OBDII port and flashes tunes to the car's ECU. It includes some preloaded tunes for specific parts, known as OTS or off-the-shelf tunes, but professional tuners can also create custom tunes using Cobb's software.

### Stage what? WRX Stages 1, 2, and 3 explained. | ThinkTuning

Use it with our EcuFlash software for unlimited tuning and logging of Subaru, Mitsubishi, and an ever-expanding list of supported vehicles. The Openport's industry-standard SAE-J2534 interface can also be used with OEM reflashing software for any car sold in the USA since 2004. A Smart Cable Means Faster Tuning.

### Tactrix

You can try tuning, look at Hydrochloric's guide on how to swap in a WRX ECU- you might need things like different crank triggers and throttle body. From there you can tweak anything your heart desires.. or have a tuner look at it. Or you can have your harness merged by iWire and run a stock WRX ecu and harness.. it's up to you. Happy searching!

Definitions: Reflash: Permanent flash that remains if the ECU loses power. Realtime: Temporary upload that remains until the ECU loses power or is reset. Now, lets dig a little deeper into what each function means. One of our favorite analogies is that a Reflash is like tearing down a house and rebuilding it from the ground up.
